Ankit Yadav

Frontend Developer(React)

Professional Summary

Innovative Frontend Developer proficient in React.js, JavaScript, HTML, and CSS, adept at integrating generative AI into projects. Strong problem-solving abilities and meticulous attention to detail in crafting scalable, high-performance applications. Rapidly learns new tech stacks to enhance development efficiency and foster collaborative teamwork.

Projects

Crime Portal   Live Demo Link   Github Repo Link

React   Redux   MongoDB   Node.js

tailwindcss   JavaScript   Responsive Web Design

- Developed a web-based application using React.js for efficient crime reporting and analysis.
- Collaborated with a team of 4 to integrate frontend components with backend APIs, improving community safety.
- Implemented responsive design with TailwindCSS, ensuring optimal performance across devices.
- Utilized Redux for state management, enhancing user interface and experience.

UsabilityHub   Live Demo Link   Github Repo Link

HTML5   CSS3

- Designed and implemented the UsabilityHub homepage with a focus on engaging visual elements and intuitive user navigation.
- Integrated responsive design principles to ensure a seamless experience across various devices and browsers.
- Emphasized the value proposition and key benefits of UsabilityHub through concise and effective content presentation.
- Created navigation links to enhance user journey and accessibility for various sections like 'Products,' 'Pricing,' and more.
- Optimized the homepage for performance, ensuring it loads quickly and efficiently for all users.
